| Precipitation probability | | | | | |
| 30% | 30% | 10% | <05% | <05% | 10% |

**Forecast for Sunday 24 Mar 2024**

**Weather:** Scattered showers at first, wintry on the highest summits, these slowly easing off during the morning. Mainly dry thereafter with a mix of sunny spells and patchy cloud throughout the day. Winds strong at first but easing during the afternoon. Skies mostly clear into the evening before cloud arrives from the west later.

**Chance of cloud-free hill tops above 600m:** 50% at first, rising to 100% during the morning.

**Low cloud and visibility:** Areas of cloud base 500-700m in association with showers, gradually lifting above most hills during the morning. Visibility mainly good or very good but reducing temporarily in showers.
